Python

HTML

CSS

Javascript

SQL

## TECHNICAL PROJECTS

### Entertainment-Zone [🔗](#)

- It consists of a comprehensive collection of materials and techniques to be employed for the purpose of mindfully enjoying one's leisure time
- This includes recommendations on what literature, blogs, sketches, riddles and articles to peruse, what music and podcasts to tune in .
- It assists individuals in utilizing their free time by involving them in mindful activities tailored according to their interests
- **Skills Used** : HTML ,CSS ,JAVASCRIPT
- **Database Used** : Firebase

### E-Commerce Website(Currently Working On) [🔗](#)

- The website excels in providing a highly personalized shopping experience.
- It offers a unique range of products, covering various categories and catering to diverse customer preferences.
- Users can readily access help through various channels, and the website encourages interaction and feedback through forums, reviews, or social media.

### Weather Report Today [🔗](#)

- This project offers up-to-date weather data, such as temperature and rainfall patterns, for the location input by the user. Furthermore, it presents a map of the specified location.
- This website has the capability to predict the weather for the next two days.

### Donation Carnival - payment gateway integration [🔗](#)

- This platform allows people to donate money using different UPI apps, and the funds collected are intended for a meaningful cause (currently in test mode).
